🔗 YoussefEzzat17

Profile

Front-end Developer specializing in **Angular**, **TypeScript**, and **RxJS**, with expertise in building high-performance, responsive web applications. Passionate about crafting clean, accessible, and pixel-perfect UIs while optimizing front-end performance.

Backed by full-stack experience (**Node.js**, **MongoDB**), enabling seamless collaboration in cross-functional teams.

Seeking to leverage my skills in a dynamic environment to build impactful, user-centric applications.
